Project Fairway

Financial Analysis & Cost Structure

Prepared by: Russell Evans

Date: July 2026

Version: 2.0

Phase 1 Investment: Two premium simulator bays. All figures in this document reflect the Phase 1 initial capital requirement only. Phase 2 expansion (Bays 3 & 4) is triggered by validated demand.

Contents:

Section 1: Phase 1 Build-Out Budget

This section provides a detailed line-item estimate for the Phase 1 build-out: two premium simulator bays, lounge, and supporting infrastructure. This is the initial capital requirement for launch. Three scenarios are presented: Conservative (lean MVP), Target (recommended premium build), and Premium (top-of-line). All estimates assume a raw commercial shell requiring full build-out.

Phase 1 scope: 2 bays, reception/lounge, restroom, mechanical room (~1,200-1,600 sq ft).

Simulator Technology

The core technology package for each bay: launch monitor, software, projector, impact screen, enclosure, and computing.

Item	Qty	Conservative	Target	Premium
Launch Monitor	2	$7,000-10,000	$16,000-20,000	$30,000-40,000
Simulator Software License	2	$1,000-2,000	$2,000-4,000	$4,000-6,000
Short-Throw Projector (4K)	2	$3,000-5,000	$6,000-10,000	$12,000-18,000
Impact Screen + Frame	2	$2,000-3,000	$4,000-6,000	$6,000-8,000
Enclosure / Bay Frame	2	$3,000-5,000	$6,000-10,000	$10,000-14,000
Gaming PC (per bay)	2	$3,000-4,000	$4,000-6,000	$6,000-8,000
Auto-Tee System	2	$2,000-4,000	$5,000-8,000	$8,000-12,000
Ball Return System	2	$3,000-5,000	$6,000-10,000	$10,000-15,000
Hitting Mat (premium turf)	2	$800-1,200	$1,500-2,500	$2,500-4,000
Bay Dividers (acoustic)	1	$1,500-2,500	$3,000-5,000	$5,000-8,000
Subtotal: Simulator Tech		**$26,300-41,700**	**$53,500-81,500**	**$93,500-133,000**

Construction & Build-Out

Assumes a raw or semi-finished commercial space requiring framing, electrical, HVAC, and finish work.

Item	Conservative	Target	Premium
Framing & Drywall	$8,000-12,000	$15,000-22,000	$22,000-30,000
Electrical (panel, circuits, outlets)	$8,000-12,000	$12,000-18,000	$18,000-25,000
HVAC (supplemental cooling)	$6,000-10,000	$10,000-16,000	$16,000-24,000
Plumbing (restroom, sink, beverage area)	$4,000-7,000	$7,000-12,000	$12,000-16,000
Flooring (turf, LVP, concrete polish)	$4,000-6,000	$6,000-10,000	$10,000-15,000

Painting & Wall Finishes	$2,000-3,000	$3,000-5,000	$5,000-8,000
Lighting (ambient + bay lighting)	$3,000-5,000	$5,000-8,000	$8,000-12,000
Acoustic Treatment	$2,000-4,000	$4,000-7,000	$7,000-12,000
Permits & Inspections	$2,000-4,000	$3,000-5,000	$4,000-6,000
Subtotal: Construction	**$39,000-63,000**	**$65,000-103,000**	**$102,000-148,000**

Furniture, Decor & Atmosphere

The elements that create the 'luxury golf barn' feel — warm, modern, comfortable. This is what separates Project Fairway from the dark, dingy competitor experience.

Item	Conservative	Target	Premium
Bay Seating (leather recliners/lounge, per bay)	$2,000-3,000	$4,000-6,000	$6,000-10,000
Lounge Furniture (reception area)	$2,000-4,000	$5,000-8,000	$8,000-14,000
Wood Accent Walls / Shelving	$1,000-2,000	$3,000-5,000	$5,000-8,000
Decorative Lighting	$500-1,000	$1,500-3,000	$3,000-5,000
Signage (exterior + interior)	$1,000-2,000	$2,500-4,000	$4,000-7,000
Beverage Area (bar top, mini fridge, taps, glassware)	$1,000-2,000	$3,000-5,000	$5,000-8,000
Bluetooth Speakers (per bay)	$300-500	$600-1,000	$1,000-2,000
Phone Charging Stations	$200-400	$400-800	$800-1,200
Misc Decor (art, plants, rugs)	$500-1,000	$1,500-3,000	$3,000-5,000
Subtotal: Furniture & Decor	**$8,500-15,900**	**$21,000-35,800**	**$35,800-60,200**

Technology & Operations

The systems that enable the automated, self-service experience and your Salesforce-powered Golfer360 platform.

Item	Conservative	Target	Premium
Networking (router, switches, CAT6, WiFi AP)	$1,500-2,500	$2,500-4,000	$4,000-6,000
Security Cameras	$1,000-2,000	$2,000-3,500	$3,500-5,000
Access Control (smart locks, member entry)	$1,500-3,000	$3,000-5,000	$5,000-8,000
Welcome Display / Check-in Kiosk	$500-1,000	$1,500-3,000	$3,000-5,000
POS System / Payment Terminal	$500-1,000	$1,000-2,000	$2,000-3,000
TV/Monitor (lounge display)	$500-800	$1,000-2,000	$2,000-4,000
Subtotal: Technology	**$5,500-10,300**	**$11,000-19,500**	**$19,500-31,000**

Licensing, Soft Costs & Working Capital

Item	Conservative	Target	Premium

Business Formation & Legal	$2,000-4,000	$4,000-7,000	$7,000-12,000
Virginia ABC License (Wine & Beer On-Premises)	$300-500	$300-500	$300-500
ABC Application & Compliance Costs	$500-1,000	$1,000-2,000	$1,500-3,000
Commercial Insurance (first year)	$3,500-5,500	$5,500-9,000	$9,000-14,000
Liquor Liability Insurance (add-on)	$500-1,000	$800-1,500	$1,000-2,000
Lease Deposit (first + last + security)	$5,000-10,000	$8,000-15,000	$12,000-20,000
Initial Beer Inventory (Bunny Man + select)	$500-1,000	$1,000-2,000	$2,000-3,000
Marketing & Launch	$2,000-4,000	$5,000-10,000	$10,000-20,000
Working Capital (3-month runway)	$15,000-25,000	$25,000-40,000	$40,000-60,000
Contingency (10%)	$8,500-14,000	$16,000-27,000	$27,000-40,000
Subtotal: Licensing & Soft Costs	**$37,800-66,000**	**$66,600-114,000**	**$109,800-174,500**

Phase 1 Total Investment Summary

This is the total capital required to open the doors with two fully operational premium bays, beverage service, and the Salesforce technology platform running.

Category	Conservative	Target	Premium
Simulator Technology (2 bays)	$26,300-41,700	$53,500-81,500	$93,500-133,000
Construction & Build-Out	$39,000-63,000	$65,000-103,000	$102,000-148,000
Furniture & Decor	$8,500-15,900	$21,000-35,800	$35,800-60,200
Technology & Operations	$5,500-10,300	$11,000-19,500	$19,500-31,000
Licensing & Soft Costs	$37,800-66,000	$66,600-114,000	$109,800-174,500
PHASE 1 TOTAL INVESTMENT	**$117,100-196,900**	**$217,100-353,800**	**$360,600-546,700**

Recommendation: The Target scenario ($217K-$354K) delivers the premium experience described in the concept document without over-investing before proving the market. This is the Phase 1 ask for investors.

Phase 2 expansion (Bays 3 & 4) is estimated at an additional $80K-$150K and is self-funded from Phase 1 profits once utilization consistently exceeds 55%. See Section 5.

Section 2: Simulator Ecosystem Comparison

Choosing the right technology stack is the most consequential decision after location. The launch monitor determines data accuracy, tracking reliability, and customer experience. Everything else builds on top of that foundation.

Launch Monitors

This is the core sensor that tracks ball flight and club data. The system seen at the Annandale competitor was likely a budget overhead camera system. Here's how the options compare:

System	Type	Price/Unit	Detection Rate	Data Points
Uneekor EYE XO2	Overhead camera	$8,000-10,000	~99%	Ball + Club
Uneekor QED	Overhead camera	$5,000-7,000	~97%	Ball + Club
Foresight GCHawk	Overhead photometric	$10,000-13,000	~99%	Ball + Club
TrackMan iO	Overhead radar + camera	$15,000-20,000	~99.5%	Ball + Club (fullest)
Bravo (Korean)	Overhead camera	$4,000-6,000	~92-95%	Ball (limited club)
Budget Chinese (Rapsodo-type)	Overhead camera	$2,000-4,000	~85-92%	Ball only

At 85-92% detection, you get 1-2 missed shots per 10 swings (the Annandale experience). At 99%+, it's maybe 1 miss per 100. For a premium club charging $55-70/hr, missed shots are unacceptable. The Uneekor EYE XO2 is the sweet spot: price vs. reliability vs. data richness for Golfer360.

Ready Indicator (Proprietary Enhancement)

The Uneekor systems include a status LED that indicates tracking readiness. For Project Fairway, this will be enhanced with a visible projected green light on the ball/tee position — intuitive and unmistakable. This is a relatively simple custom addition (LED strip + sensor feedback from the Uneekor API) that reinforces the premium, 'everything just works' experience and differentiates from competitors.

Simulator Software

Software	Annual Cost	Courses	Features	Notes
E6 Connect	$3,000-5,000/yr	100+	Courses, range, mini-games, multiplayer	Industry standard for commercial; clean UI
GSPro	$250-500/yr	200+	Courses, range, games, customizable	Budget-friendly; community courses; less polished
TGC 2019	$1,000-2,000/yr	150,000+	Courses, range, tournaments	Most courses; slightly dated graphics

TrackMan (proprietary)	$3,000-4,000/yr	50+	Courses, range, combine, coaching	Only works with TrackMan hardware
Uneekor (proprietary)	Included w/hardware	20+	Range, putting, games	Basic; usually paired with E6 or GSPro

Recommendation: E6 Connect for the customer-facing experience (clean, professional, commercial-grade). GSPro as a secondary option for course variety. Both work with Uneekor hardware.

Auto-Tee & Ball Return Systems

The combination of sloped floor + ball collection + automatic tee creates a seamless hitting experience. This feature was the standout observation from the competitor visit — it keeps golfers in flow.

System	Price/Bay	How It Works	Pros/Cons
ProTee Auto-Tee (Sweden)	$3,500-5,000	Ball rolls into collector, pneumatic tee raises ball	Proven commercial; quiet; reliable
TeeBox Systems	$2,500-4,000	Gravity return + motorized tee elevation	Good mid-range; works with sloped floor
DIY / Custom Fabrication	$1,500-3,000	Sloped platform + custom ball feed + solenoid tee	Customizable; requires engineering
Chinese Auto-Tee (various)	$800-2,000	Varies; typically ball elevator + rubber tee	Cheapest; reliability concerns
Sloped Floor Platform (custom)	$2,000-4,000	Elevated platform with turf-covered slope; ball rolls to collector	Premium feel; requires construction

> *Recommendation: Custom sloped platform (for the ball return effect) + ProTee or TeeBox auto-tee. Budget $4,000-8,000 per bay. This is a key differentiator — worth investing in reliability.*

Projectors

Projector	Price	Resolution	Lumens	Notes
BenQ LK936ST	$4,000-5,000	4K	5,100	Excellent for golf sim; short-throw
Optoma GT2160HDR	$2,500-3,500	1080p	4,200	Budget-friendly; good enough for most
Sony VPL-XW5000ES	$5,000-6,000	4K	2,000	Beautiful image; lower lumens
Epson Pro L1075U	$3,500-4,500	WUXGA	7,000	Very bright; laser; commercial-grade

Impact Screens

Screen	Price/Bay	Size	Notes
Carl's Place Premium	$1,200-2,000	Up to 14 ft wide	Most popular; good image quality; durable
HomeCourse Pro	$1,500-2,500	Up to 16 ft wide	Premium; excellent ball absorption
AllSportSystems	$2,000-3,500	Custom sizing	Commercial-grade; best durability

TruGolf / Full Swing OEM	$3,000-5,000	Included w/enclosure	Proprietary; comes with full system

Recommended Technology Stack (Per Bay)

Component	Recommendation	Cost/Bay	Rationale
Launch Monitor	**Uneekor EYE XO2**	$8,000-10,000	99% detection; overhead; API for Golfer360; status LED
Software	**E6 Connect + GSPro**	$1,500-2,500/yr	E6 for polish; GSPro for variety
Projector	**BenQ LK936ST (4K)**	$4,000-5,000	Bright; 4K immersion; short-throw
Impact Screen	**Carl's Place Premium**	$1,500-2,000	Proven commercial; replaceable
Enclosure	**Carl's Place Pro or custom**	$3,000-5,000	Clean look; integrates with build
Auto-Tee + Ball Return	**ProTee + custom platform**	$4,000-8,000	Sloped floor + reliable auto-tee
Gaming PC	**Custom (RTX 4070+)**	$2,000-3,000	Runs E6 at 4K; future-proof
Hitting Mat	**Fiberbuilt Flight Deck**	$750-1,200	Premium turf; forgiving on joints
Total Per Bay		**$24,750-36,700**	
Phase 1 Total (2 Bays)		**$49,500-73,400**	

Key advantage: The Uneekor API/data export feeds directly into Salesforce Data Cloud for Golfer360. Every shot becomes a data point. This is what enables the AI coaching differentiator.

Section 3: Monthly Operating Costs

What it costs to keep the doors open each month (Phase 1, Target build, steady state). Now includes beverage operations and ABC license compliance.

Category	Monthly Low	Monthly High	Notes
Rent			
Space lease (~1,400 sq ft)	$2,100	$3,500	$18-30/sq ft annually
CAM / NNN charges	$300	$700	Common area maintenance, taxes
Utilities			
Electricity	$400	$800	Projectors + PCs + HVAC
Internet (business fiber)	$150	$300	Symmetric fiber
Water/Sewer	$50	$100	Restroom + beverage area
Software & Subscriptions			
Simulator software (E6 + GSPro)	$250	$450	Annual licenses / 12
Salesforce Platform	$300	$800	CRM + Data Cloud + Experience Cloud
Booking/scheduling system	$50	$150	If not built in Salesforce
Security/access control SaaS	$50	$100	Cloud-managed locks + cameras
Music licensing (BMI/ASCAP)	$25	$50	Required for commercial music
Insurance			
General liability + property	$300	$600	Sports/recreation classification
Liquor liability (ABC requirement)	$75	$150	Required for beer/wine sales
Workers comp (if employees)	$0	$200	Only if staffed
Beverage Operations			
Beer inventory (COGS)	$300	$800	Bunny Man + select craft; ~30-40% COGS
Non-alcoholic beverages	$100	$250	Water, coffee, soft drinks
ABC license renewal (annual / 12)	$25	$40	Virginia annual renewal
Staffing			
Part-time attendant (evenings/weekends)	$1,200	$2,400	20-30 hrs/week; also serves beer
Cleaning service	$200	$400	2-3x per week

Maintenance & Supplies			
Equipment maintenance	$100	$300	Screens, projector bulbs, etc.
Consumables (balls, tees, cleaning)	$50	$150	Golf balls, turf patches
Marketing			
Digital marketing / social	$200	$500	Google Ads, social, local SEO
Community / events	$100	$300	Cross-promotion w/ Workhouse & Bunny Man
Miscellaneous			
Accounting / bookkeeping	$150	$300	Monthly bookkeeping service
Credit card processing fees	$150	$400	~2.9% of revenue
Contingency	$200	$500	Unexpected expenses
TOTAL MONTHLY OPERATING	**$6,875**	**$13,740**	**Midpoint: ~$10,300/month**

Break-Even Analysis

Hours per week the bays need to be booked to cover operating costs. Bay rental is the primary revenue driver; beverage sales and memberships are additive.

Scenario	Hourly Rate	Monthly OpEx	Hours Needed/Month	Hours/Week (per bay)
Low Cost / Low Price	$50/hr	$6,875	138 hrs	~17 hrs/bay
Mid Cost / Mid Price	$60/hr	$10,300	172 hrs	~22 hrs/bay
High Cost / Premium Price	$70/hr	$13,740	196 hrs	~25 hrs/bay

Each bay has ~84 bookable hours/week (12 hrs/day x 7 days). At the midpoint, you need ~22 hrs/bay/week — roughly 26% utilization to break even on operating costs alone. Industry average for successful indoor golf is 40-60% utilization.

Revenue Potential at Various Utilization Rates

Bay rental revenue only (at $60/hr). Beverage revenue adds $500-$2,000/month on top.

Utilization	Hrs/Week (2 bays)	Monthly Revenue	Monthly Profit (vs $10,300)	Annual Profit
25%	42 hrs	$10,080	-$220 (break-even)	-$2,640
35%	59 hrs	$14,160	$3,860	$46,320
45%	76 hrs	$18,240	$7,940	$95,280
55%	92 hrs	$22,080	$11,780	$141,360
65%	109 hrs	$26,160	$15,860	$190,320

> *Note: This is bay rental only. Memberships, beverage margin, leagues, events, lessons, and AI coaching subscriptions are all additive. A Gold member paying $200/month generates revenue whether they visit or not.*

Investment Payback Estimate

Time to recover Phase 1 investment ($285K midpoint of Target) from monthly profit after OpEx.

Utilization	Monthly Profit	Payback Period	Assessment
35%	$3,860	~74 months (6.2 years)	Slow — needs additional revenue streams
45%	$7,940	~36 months (3 years)	Reasonable — typical for new venue
55%	$11,780	~24 months (2 years)	Strong — Phase 2 expansion trigger
65%	$15,860	~18 months (1.5 years)	Excellent — rapid growth mode

At 45-55% utilization (achievable within Year 1 in this market), payback is 2-3 years on bay revenue alone. Beverage sales, memberships, and events accelerate this significantly.

Section 4: Beverage Strategy & Bunny Man Brewing Partnership

Beverage Model

Project Fairway will operate a hybrid beverage model designed to maximize customer experience, partnership value, and revenue while keeping operational complexity low.

- **BYOB Permitted:** Customers may bring their own beer/wine (purchased from Bunny Man Brewing next door or elsewhere). This drives traffic to Bunny Man and creates a casual, welcoming atmosphere.
- **On-Site Beer & Wine Sales:** Project Fairway will also sell Bunny Man beers and select craft options on-premises. Requires a Virginia ABC Wine & Beer On-Premises license.
- **Non-Alcoholic:** Water, coffee, and soft drinks always available (included/low-cost).

Virginia ABC License Requirements

Item	Details	Cost
License Type	Wine & Beer On-Premises (retail)	
Application Fee	One-time state filing	$195-$300
Annual License Fee	Renewable annually	$300-$450/yr
Background Check / Investigation	Required for all owners	Included in application
Liquor Liability Insurance	Required by Virginia ABC; $1M coverage typical	$500-1,500/yr
Server Training (TIPS/equivalent)	Required for staff who serve	$30-50/person
Timeline	Application to approval	4-8 weeks typical

> *Important: Virginia's Wine & Beer license is simpler than a full Mixed Beverage (liquor) license. No food service requirement for beer/wine only. The BYOB allowance is separate — Virginia generally permits BYOB in establishments that don't hold a liquor license, but since you'll hold a beer/wine license, your ABC attorney should confirm the BYOB policy is permitted alongside on-site sales.*

Beverage Revenue Model

Beer/wine sales provide high-margin incremental revenue with minimal labor (your attendant serves).

Metric	Conservative	Moderate	Optimistic
Drinks sold per bay-hour	0.5	1.0	1.5
Average price per drink	$7	$8	$9
Bay-hours booked per month	172	230	300
Gross beverage revenue/month	$602	$1,840	$4,050

COGS (~35% for craft beer)	-$211	-$644	-$1,418
Net beverage profit/month	**$391**	**$1,196**	**$2,633**

Even at conservative estimates, beverage adds ~$400-$1,200/month in pure margin with almost no incremental labor. At higher utilization, it materially accelerates payback.

Bunny Man Brewing Partnership Proposal

Bunny Man Brewing operates on/near the Workhouse campus. A formal partnership creates mutual value:

- **For Project Fairway members:** Discounted pours at Bunny Man (e.g., $1 off pints for Gold/Silver members). Adds tangible membership value at no cost to Project Fairway.
- **For Bunny Man:** Guaranteed foot traffic from golfers before/after sessions. Featured tap at Project Fairway (exclusive or priority placement). Joint marketing visibility.
- **Joint events:** Golf & Beer Nights, tournament sponsorships, seasonal releases tied to golf events, brewery league nights.
- **Revenue structure:** Standard wholesale purchase from Bunny Man (typically 50% of retail). No revenue share required — both parties benefit from traffic.
- **BYOB synergy:** Customers who prefer to bring their own walk to Bunny Man, buy a 4-pack or crowler, and bring it back. Bunny Man makes a sale; the golfer has fresh local beer; Project Fairway has a happy customer.

This partnership should be pitched as: 'We send you customers. You give our members a reason to love the campus even more. Let's grow together.' Low-risk, high-visibility for both brands.

Section 5: Phase 2 Expansion (Bays 3 & 4)

Phase 2 is NOT part of the initial capital raise. It is triggered by validated demand and funded from Phase 1 operating profits. This section exists to show investors the growth path and total addressable opportunity.

Phase 2 is self-funded from Phase 1 profits. It is NOT part of the initial investment ask.

Expansion Trigger Criteria

- Consistent utilization above 55% for 3+ months
- Waitlist or regular booking conflicts during peak hours
- Membership base exceeding 50 active members
- Monthly profit consistently above $10K (after OpEx)
- Cash reserves sufficient to fund build-out without new debt

Phase 2 Estimated Investment

Category	Estimate	Notes
Simulator Technology (2 additional bays)	$49,500-73,400	Same spec as Phase 1 bays
Construction (bays + expanded lounge)	$20,000-40,000	Less than Phase 1 — infrastructure exists
Additional Furniture & Decor	$8,000-15,000	Bay seating + expanded lounge
Expanded HVAC	$5,000-10,000	Additional cooling for 2 more bays
Second Restroom	$4,000-8,000	Required for increased occupancy
Additional Parking (if needed)	$0-5,000	Negotiation with Workhouse
Phase 2 Total	**$86,500-151,400**	**Self-funded from profits**

Phase 2 Revenue Impact

Doubling from 2 to 4 bays roughly doubles revenue capacity while increasing OpEx by only ~40-50% (shared rent, shared staffing, shared marketing). Monthly operating costs increase approximately $3,000-$5,000 for the additional bays (electricity, maintenance, consumables, increased cleaning). At 50% utilization across 4 bays at $60/hr, monthly revenue jumps to ~$36,000 against ~$14,000 OpEx = ~$22,000/month profit.

Key Assumptions & Caveats

- Rent estimated at $18-30/sq ft annually (Fairfax County commercial; actual Workhouse terms TBD)
- Pricing assumes $55-70/hr range; competitor charges ~$30/hr for a budget experience
- Staffing assumes automation-first model with part-time attendant (who also serves beer)

- Membership revenue not included in break-even calculations (conservative approach)
- Beverage revenue modeled separately; adds $400-$2,600/month in net margin
- ABC license timeline: 4-8 weeks; should be initiated concurrent with build-out
- Bunny Man partnership not yet established; terms assumed at standard wholesale
- Salesforce licensing assumes professional discount or existing relationship
- All construction estimates to be validated with contractor quotes once space is secured
- Phase 2 is entirely self-funded; no additional investor capital required

---
