

FAIRWAY GOLF CLUB

AI-Powered Indoor Golf Improvement Club

Workhouse Arts Center | Fairfax Station, Virginia

Confidential | July 2026

THE VISION

Every visit makes you a better golfer.

Fairway Golf Club is Northern Virginia's first AI-powered indoor golf improvement club. We combine premium simulator technology, automated ball return systems, and Salesforce-powered AI coaching to create a membership experience where every session builds on the last.

This is not a simulator rental business. This is a golf improvement community with technology as its backbone.

THE PROBLEM

Indoor golf today is forgettable.

Dark & Uninviting

Most simulators feel like basements. Dark walls, no personality, zero hospitality.

No Improvement Path

You hit balls and leave. No data carries over. No coaching. No progress tracking.

Unreliable Technology

Budget launch monitors miss shots. No visual feedback when the system is ready.

No Community

Rent a bay, leave. No memberships, no leagues, no reason to come back.

THE SOLUTION

Premium experience. Intelligent technology. Real improvement.

Golfer360 Profile

Every session captured. AI tracks your progress over time and recommends focused practice.

Automated Ball Return

Sloped floor + auto-tee keeps you in flow. Green LED confirms ready. No bending, no waiting.

Premium Atmosphere

Warm walnut, leather, exposed brick. Craft beer on tap. A place you want to bring friends.

Agentforce AI Coach

Salesforce-powered AI analyzes your data and delivers personalized coaching insights.
